GEO. DeWALD & CO.

Anticipating months back a business proportionate to the promise of good crops, we prepared for a business exceeding all we have known in the past. Every department has shared in this extraordinary preparation, and, while only a portion can be named at present, all are even thus overflowing with the best products of the world in their respective lines. A feature of the season's business will be the very moderate prices which we are able to make on all products by reason of having availed of the recent oppressed condition of the markets, and our large contracts at such a time on a basis exclusively of cash. Perhaps of all our departments that of DRESS GOODS is the most prominent because it comprehends so much and because for many years we have made a specialty thereof.

A MIRACULOUS ESCAPE.

A Carriage Party Fall Twenty Feet Into the River--One of Them Seriously Injured.

WASHINGTON, Sept. 25.—Prof. A. K. Spence, dean of the faculty of Fisk university, Nashville, Tenn., with his wife, daughter and E. C. Edmonston, of the war department, had an almost miraculously escape from death yesterday while driving along the Fort Myer road. Descending the steep military road from Fort Myer the horse was stung by a yellow jacket. The animal plunged down the road and over a bridge, carrying the vehicle and passengers with it a distance of twenty feet in the water. Professor and Mrs. Spence were pinioned under the vehicle until extricated by Miss Spence and Edmonston, who escaped with slight injuries. The injured parties were brought to the Emergency hospital. The bones of Professor Spence's face were broken, his shoulder bone crushed, skull slightly fractured and right eye almost torn out. Owing to the serious injuries to Professor Spence, his physicians are unable to state whether his injuries will prove fatal. Mrs. Spence's injuries, while not fatal, are very painful.

BALMACEDA REFUGEES.

Fifty of Them Reach Lima in Safety --Their Escape Remarkable.

NEW YORK, Sept. 25.—A special cable dispatch from Valparaiso to the Herald says that Colonel Carvello, who left Coquimba in an English steamer when that town was surrendered to the junta, was taken from the steamer when she stopped at Iquique on her way north. The colonel was forcibly taken by a large number of armed men on the charge of appropriating public money.

A Lima, Peru, special cable to the Herald says the mysterious refugees who were smuggled aboard the flagship "San Francisco," in the harbor of Valparaiso, the night before the vessel sailed, a fact which gave rise to the rumor that Balmaceda was one of them, were two in number, namely, Ovalle Vicuna, the deputy, and Colonel Vidaurre, the president of the court that tried the young men for conspiracy at Los Canos. The prisoners, thirty-two in number, who ranged from sixteen to eighteen years, were afterward massacred. It would have fared very hard with these two gentlemen had they been captured, as the feeling against all those in any way concerned with the massacre was very bitter. There are fifty Balmaceda refugees now in Lima. They express their doubts as to the stability of the present government in Chili and denounce its acts.

CHINESE CONTRABANDS.

Detectives Find Papers Which Throw Much Light on the Subject.

GRAND FORKS, N. D., Sept. 25.—Papers found on three Chinamen arrested here yesterday by W. S. Day, of the treasury department, prove they were smuggled from the Dominion. They left Winnipeg Saturday night, making the entire journey by cart. Papers of permission to leave were found secreted in their clothing. Detective Day has been in this vicinity since last July and charges Lee Kee, a laundryman here, with being extensively engaged in the Contraband business. As he expected another load of Celestials to leave Winnipeg last night every Chinaman in town was arrested to prevent possible communication.

HOMELESS AND PENNILESS

Are the Settlers in the Burned Minnesota Districts.

ST. PAUL, Minn. 25.—J. A. Wesley, government surveyor, has just come in from the upper Mississippi by way of the Duluth road, and reports terribly devastation along the line. He says hundreds of cattle are burned and many homesteads destroyed. The train on which he came down stopped at one place and took on fourteen men, women and children, settlers, who barely escaped with their lives. Unless heavy rains fall at once all the little villages and the homesteads south of Duluth for forty miles will certainly be burned. There is no doubt, he says, that many human lives are lost, and expensive logging outfits burned.

A WESTERN ENTERPRISE.

Chicago Parties Lease and Set in Motion the Duluth Iron Works.

DULUTH, Minn., Sept. 25.—Charles Himrod & Co., Crear & Clinich and Major Berkolet, all large Chicago iron and steel dealers and furnace men, have leased the new blast furnace of the Duluth Iron and Steel company, and will operate it for a term of years. The furnace has a weekly capacity of about 1,100 tons of pig iron. It will be the first large coke furnace on Lake Superior and the first one to use the Bessemer ores of the Vermillion range at home.

Withdrawn From the Race.

WASHINGTON, Sept. 25.—Congressman Herbert, of Alabama, has given to Senator Pugh, of the same state, the announcement of his withdrawal from the contest for a place on the inter state commerce commission. Mr. Herbert's friends prevailed on him to take this course because the farmer's alliance might capture his seat in the house in the event of his appointment as a commissioner.

Render a Verdict of Guilty.

BUFFALO, Sept. 25.—The jury in the Gould case filed into court at 10:09 this morning, having been out since 5:15 yesterday afternoon. Foreman Sweetes said that they had been unable to agree and wanted to ask a question: "We want to ask if a verdict of guilty would be required if we find that Wm. Gould knew that the books were being falsified." The court made an affirmative answer. About noon the jury rendered a verdict of guilty.

A DISHONEST EMPLOYE

Unwittingly Saves His Firm From the Fate of A. V. White--A Strange Story.

CHICAGO, Sept. 25.—Not many cases are on record where a dishonest employe, in robbing his employers, has unwittingly enriched the firm. But the board of trade furnishes such a case. It has been talked about pretty extensively, although the house in question has said nothing. The members just chuckle. The house is one of the best known establishments, and ranks second to the five of six first-class houses. A year ago the house hired a young man from the west side and put him on the floor as their broker. He had practically spent his life on the board, and he had speculated on a small scale with profit to himself. Besides being a knowing young man as to the details, he had a pretty good notion of the larger side of speculation, and he came to the conclusion that corn was going to drop before long. He began to sell and corn began to rise. Deacon White down east, was getting in his work. The young man continued to sell, and corn perversely continued to rise, until the young man's small capital disappeared. He could go no further, and he made up his mind to a daring piece of dishonesty, which would have made him rich if it had gone undetected, and which, having come to light, broke him and drove him from town. The members of the firm were bulls in every kind of grain. The young man undertook to use the firm in his speculations. He continued to sell for himself extensively, but he put the sales down to his firm. In the language of the board of trade, he "buried them." It is said he sold as high as 67 and 68, and still corn rose. The young man saw the storm coming and fled the town. The members of the firm made an investigation, and when they found out the extent of the young man's deals they were paralyzed They were bulls and they did not desire to throw a lot of corn on the market. Then corn was pretty high anyhow. One of the members says, "stand half," and they hold their corn. Pretty soon the smash came which the young man had foreseen. Corn began to drop and it went slowly down until it reached the place where it met poor Deacon White trying to butt against it and crushed him. The firm watched it and grinned. The young man watched it from his hiding place and smiled. The firm had unwittingly profited by his dishonesty in a good healthy sum. This is the way a board of trade man put it: "His account with the firm stands: Short, $100,000 in September corn; average, 57½; market today, 49. You can see why the firm likes it."

Acquitted of the Charge.

NASHVILLE, Tenn., Sept. 25.—John Moran, who has been on trial here for two days, charged with the murder of Miss Mary Ann Dolan at his home in this city last June, was acquitted yesterday. The murder was a very sensational one, and the facts were widely published. The acquittal was brought about by the chief witness in the case, Miss Charlotte Racknits, a fifteen-year-old girl, retracting her charges in court.

Escapes Bankruptcy

PITTSBURG, Pa., Sept. 25.—Moorehead, McClean & Co., the embarrassed iron firm, have been granted an extension of five years by their creditors. A Rooster Will Get It.

FOREIGN NEWS.

The Death of the Grand Duchess a Severe Blow to the Czar—England Expects Trouble in India.

LONDON, Sept. 25.—The sudden death of Grand Duchess Alexandria has broken up the family party at Fredensburg, and the imperial family of Russia, and the Royal house of Denmark and Greece will have to go into mourning in reality, and other European royalties will mourn by courtesy. The death of the grand duchess will probably make a change in the plans of the czar and may lead to the omission of the proposed interview between the czar and the kaiser. Paul is the czar's favorite brother, and the affliction which he suffers in the loss of his young wife can not fail to excite the liveliest sympathy of the autocrat. Paul was deeply devoted to his wife, who was but little more than a child, having been but nineteen years old at the time of her marriage, about two years ago. As a rule the Russian grand dukes do not get along very well with their wives, but Paul was an exception, and the devotion of the pair to each other has excited frequent remarks. Besides the son, whose birth was followed by her own death, the grand duchess leaves a daughter about seventeen months old. The children will probably be taken charge of by their grandparents, the king and queen of Greece.

A Constantinople dispatch says that the Russian minister, Nelidoff, had a long conference with the sultan in relation to the sultan's circular to the powers relative to the passage of the Dardanelles by Russian vessels. The wording of the circular is said to be not satisfactory to the Russians, who claim that the incident was a matter for settlement between Russia and Turkey alone, and that neither country owes anybody any explanation on the subject.

Calcutta advices state that the viceroy is much alarmed by the sullen tone of native populace, who have been particularly aggressive of late. The age of the consent law is said to be the chief foundation for popular anger. It is interfering with the customs of the Hindoos more than was at first expected, and several husbands have already been prosecuted for taking their child wives home under the legal age. The priests are especially angry at the bill, which tends to deprive their order of certain old fashioned privileges. The lack of cohesion among the natives is the strongest factor in making successful rebellion almost impossible. At the same time many Europeans claim that British rule in India is really in danger owing to the rash course of the viceroy both in domestic affairs and in the severe punishment of the leaders in the Manipure insurrection. The rulers of the fendatory states of India are said to feel uneasy on account of the way in which the royal family at Manipure was treated and they are asking each other what the fate would be of any other Indian Prince who might be driven by intolerable tyrany into armed resistance against British authority. The hanging of Senaputty was especially offensive to the Hindoos, that being considered a most disgraceful form of execution, and although England has formally annexed Manipure, the state is to remain virtually within complete control by English officials. All the circumstances go to influence the Hindoo minds, and make them susceptive of disloyal sentiments against Great Britain.

THE FAIR.

Another Great Night--The Toomey Sulky Goes to Mary Cantilvre.

Library hall was packed again last night. Good cheer prevailed throughout, and from a pecuniary point of view, smiled on the various booths. The Mandolin Hungarian orchestra discovered sweet music, and added to the enjoyment of the patrons of the cafe and refreshment stand. At 10 o'clock attention began to center at the place where some of the leading horses of the country were entered in a contest for the Toomey sulky. At 10:45 another horse led the score, but in the secret ballot heat, Mary Cantilvre went to the pole and, after a struggle of fifteen minutes she went under the victor's wire amidst the plaudits of her admirers.

The diamond ring contest closes Saturday night.

Mr. T. Spellsey, of Lima, Ohio, was a liberal patron of the fair last evening.

There will be a contest between Father John Quinlan and Father William Quinlan for a beautiful secretary.

Old age is honorable and the ladies entered in the arm chair contest deserve the support of a long line of acquaintances tomorrow night.

GARCIA'S HARD LUCK.

He Escapes From Mexico and is Now Pursued by Texas Troops.

LAREDO, Tex., Sept. 25.—Late last night Centrain Garcia, the revolutionist, by a narrow chance escaped lynching just across the border. From information to hand it is known that Garcia had in some way separated himself from his followers. The Mexicans ran across and captured him and were making preparations to lynch him when his men came on the scene and rescued him. Garcia and men crossed to Texas during the night and are this morning pursued by United States troops.

TROUBLE AHEAD.

Chinese Secret Societies Will Resist Any Demand by Foreigners for Redress for the Recent Outrages.

LONDON, Sept. 25.—Advices from Shanghai to the London and China Telegraph, of this city, state that the highest officials at Pekin and at Nanking expect the European governments to combine in a demand for redress for the outrages perpetrated upon foreigners in China. The same paper adds that the secret societies are also expecting such action upon the part of the powers and that they are preparing to act when the right moment arrives. The papers say it is certain that a very prominent person has been asked to supply the war material and drill instructors for use in the lower Yang-Tse-Kiang districts. Many young men of the best Chinese families are connected with these secret societies. The same paper states that a resident has been asked to send estimates to Nankin for organizing a brigade of troops to be disciplined and armed according to the English system, and to be commanded by foreign officers. The same resident, it is said, has been asked to state the terms upon which he can supply three fast steam orniers, fully equipped for war, and to be delivered within three months.

GATLING TO MAKE BIG GUNS.

New Process Discovered for the Manufacture of Heavy Ordnance.

MARION, Sept. 25.—Dr. Richard J. Gatling, the inventor of the Gatling gun, has invented a process for the manufacture of heavy guns which he believes will be as great a success as his wonderful machine gun. A stock manufacturing company has been organized here. The capital stock is to be $1,000,000, all of which has been subscribed. Dr. Gatling has several patents which cover both a composition and a mechanical process. The former he declares to be much greater in tensible strength than any heretofore known, and by the latter he coils molten metal about a core, securing the strength and elasticity of a wire wrap with none of its defects. The composition has been subjected to the severest tests, which it has withstood even better than expected by the inventor.

He left for the east yesterday, and on his return intends to apply himself at once to the production of the first big gun. The new process is exceedingly rapid, and he expects in about four months from now to be ready for a test. The process is also much cheaper than any now known.

Will Appeal to the People.

RESORTED TO BLOWS!

Two Men Quarrel Over the "High Dutch" and "Low Dutch" Question, and One is Badly Hurt.

Fred Rosener and Andrew Einsiedel got into a discussion last night, at the corner of Broadway and Taylor streets, over what constitutes a "high dutchman" and a "low dutchman," and as to their relative social standing among the nations of the world.

The discussion waxed warm and soon led from hot words to blows, and a rough and tumble fight occurred, in which Einsiedel was badly pounded up. He went to Justice France and had a warrant sworn out for Rosener's arrest, on the charge of assault and battery.

The defendant admits having assaulted Einsiedel, but says he was provoked into doing it. He will have his trial Monday afternoon at 2 o'clock, and gave a bond to the justice for his appearance at that time. Einsiedel was arrested on the charge of provoke, and will also have a hearing before Justice France.

GONE TO VAN WERT.

The Tin Soldiers Go To Hear the Speech of "Majah" McKinley.

Two sheets of tin rolled around two plug hats, worn by two local republicans followed by the First Regimental band in full uniform, and a small boy carrying a banner on which was inscribed, "American Tin," formed the procession that paraded Calhoun street to the south depot this morning where a special train was in waiting to convey them to Van Wert, where the great tin man of Ohio, Major McKinley, was to address them. Out of compassion for the reputation of Allen county, quite a goodly number of democrats, attracted by the low rates and a desire to see the "Majah" before he takes his final political tumble, accompanied the band. Great quantities of tin and sugar will be floated around our neighboring city today, but they will be "out of sight" a few days later on "Campbell's" arrival. The excursionists from this city will reach home in time for supper.

MASONIC TEMPLE.

The Event of the Season Tonight--Coming Attractions.

The audience at the Masonic Temple tonight will be one of the largest of the season. The play, "The Merchant," is a high-class attraction and appeals to the very best element of theatre goers. The sale of reserved seats is already very large. Attractions like this are worthy of patronage, and it is a pleasure to endorse "The Merchant."

The "Mountain King" will be presented at the Masonic Temple Saturday evening. The "Mountain King" was written expressly for Mr. Wallick and was a pronounced success from its first production. It is a pretty melodrama, the plot treating of scenes hovering around the mountains of eastern Tennessee, with the usual love interest running through it, and the customary comedy and villainy. The leading character of the piece, Bert Simson, as given by Mr. Wallick, is an exc llent line of acting. In both plays Mr. Wallick's famous horses are seen to advantage. There are plenty of good specialty people in the support, and there is no stick among the balance of the company.

"The Still Alarm," which always has crowded houses, will be presented at the Temple next Monday and Tuesday nights.

Thurman B. Perry, manager of Pete Baker, who comes to the Masonic Temple next Thursday with his richly dressed musical comedy, "The Emigrant," was in the city yesterday.

"Mr. Potter of Texas" will shortly be presented in this city.

GUY GUYED THEM

And Walked Away With the Big Purse--Telegram Too Slow and Strathmo Distanced.

Yesterday was a red letter day in the history of the Fort Wayne Driving association. During the forenoon trains from every direction brought loads of humanity into the city, and at 1 o'clock when the bell tapped for the first race the amphitheatre, with its seating capacity of 1,500, was found to be nearly one-half too small to accommodate the crowd. Good cheer prevailed on every side, the only down east countenances to be seen were those who had placed their wages on the wrong horse. Tips were freely given, and as eagerly snapped up, but not in every instance were they "weighted down." The managers of the association glanced over the large attendance and complacently began reckoning on the profits of their venture. Pool sellers cried out their offers to the sweltering crowd of sports who faced their boxes, and the vender of cool drinks found many thirsty customers. Perhaps for the first time in Fort Wayne's history, ice water was sold for a nickel a glass among those seated in the grand stand. "Old Sol" presented his compliments in such a warmly manner that caused perspiration to ooze from every pore. The absence of rain has caused the dust to become very deep, and this alone was really the only objectionable feature of yesterday's meet.

The first race was the 2:19 trot for a purse of $1,000. The following horses were entered: Buck Morgan, Betty Jones, Frank B, New York Central, Blazeberry and Cheyenne. The horses were started on the second trial in the heat and at once the excitement sprang into fever heat. As the horses rounded the home stretch men and women climbed on chairs and cheered both the victorious and vanquished alike. It required four heats to settle the contest and then the result was as follows: Cheyenne, first; New York Central, second; Blazeberry, third. Time, 2:21½; 2:18½; 2:17½; 2:17½.

The second race was the 2:14 pace for a purse of $1,200. There were six starters: Guy, Major Wonder, Mascott, Budd Doble, Telegram and Strathmo. Owing to the actions of the last horse it required six attempts before the word was given them. In the first heat Strathmo behaved badly and when it was concluded the red flag was in her face. The race was a hot one from start to finish and after five heats had been paced a round up showed the following result: Guy, first; Major Wonder, second; Mascott, third. Time, 2:13¾; 2:14; 2:14; 2:15½; 2:16.

In the two-year-old colt race, which was next on the program, the following youngsters were started: Esmeralda, Kitchell, Red Wilkes, Bessie Wilkeswood and Plutrusa. The youngsters were easily handled and got off at the second trial. Two heats were required to tell the tale and the horses came in the order above with time credits of 2:38 and 2:35½.

The call for the three-year-old trot only brought out two horses, viz: Belle Medinm and Mares. But two heats were trotted, and, with a heat won by each, the race was continued until today, on account of darkness.

Between the regular races special time contests against time were made, resulting in a lower record for each contestant with the exception of Roy Wilkes who failed to lower his record of 2:0 His time was 2:11½. Turfmen say the track is one of the fastest in the west and that by another year much greater contests may be looked for than were presented this week.

Today's races will include many interesting features and owing to the numerous entries the association may conclude to hold open for a finish tomorrow.

The arrangements for reaching the driving park are very good, perhaps the best that could be expected this season, but with the extension of the Centlivre street railway next year many of the inconveniences that are now confronted will disappear.

NOTES.

It is never too hot for good races.

Many strange faces were to be seen yesterday.

How anxiously the cash box is watched as it crosses from the timers to the judges.

A good shower is much needed to float away the dust from the rear of the amphitheatre.

The system of electric bells works like a charm and will doubtless be brought into general use.

Myers' hunchback pony came near landing his rider head first among the crowd. He made a short stop while on a dead run.

Too bad Strathmo can not behave herself in a race, had she done so yesterday the result of the 2:14 pace would have been different.

Base Ball.

The League and Association games yesterday resulted as follows:

National League—At Boston—Boston, 5; Philadelphia, 2. At Cleveland—Cleveland, 5; Cincinnati, 1. At New York—New York, 0; Brooklyn, 6. At Chicago—Chicago, 7; Pittsburg, 4; seven innings.

THE summer weather is lapping over into autumn with a vengeance.

YESTERDAY was a regular July day, as far as heat was concerned. The thermometer was 91 in the shade.

ONE hears horse talk everywhere this week. The man who doesn't understand it is not "in the swim."

A LARGE number of Fort Wayne people are at Van Wert today listening to McKinley's plea for higher taxes on the necessities of life.

PEOPLE look at the weather indications in THE SENTINEL. With many this is almost the first thing read when the paper gets into their hands.

BENJAMIN TUCKER, of Lafayette, aged eighty, has been seized with apoplexy. For many years he was conductor on the Wabash railway, but he is now selling peanuts for a livelihood.

THE races of the Driving association have not attracted as many people to the city as it was supposed they would. It takes the agricultural fair to bring the farmers from their homes.

A MAN in Bartholomew county committed suicide because his wife went to the circus without his permission. When a man goes to a circus without asking his wife would suicide on the part of the latter be justifiable?

DR. LORIMER, of Boston, tells a reporter of this utterance by Spurgeon: "I do not like a small church," he said. "It is like being in a row-boat. If you go to move about you are likely to upset and swamp the whole machine. A big church, on the other hand, was like an ocean steamer, on which one could walk about without fear of overturning anything or of interference from deacons or any one else."

THE council committee met last night to discuss the tax levies to be fixed by the council at their meeting next Tuesday night. The following levies were agreed upon: General purposes, 68 cents; interest, 16; sinking fund, 5; city hall, 2; parks, 1, and waterworks, 18; making a total of $1.10 on the $100 valuation. There is a difference of opinion on the waterworks levy, and another meeting will be held next Monday evening.

IT IS a solitary fly that annoys. Where there are swarms of flies they have their time and attention partly occupied in mutual conversation, playing tag and other fly diversions, but get into a room with a solitary fly and he will give you his undivided attention. He will buzz in your ear, tickle your head and perform all sorts of maddening impertinences, and when you strike at him he is away off at the other end of the room describing circles in the air and laughing most artlessly. It is the solitary fly that makes life a burden.

WHEN a man marries in France he becomes legally responsible not alone for the support of his wife, but for the support of her parents, should she become destitute. This law is older than the divorce law, and there seems to be some defect in the provisions of the latter. A few weeks ago a young husband who had been divorced some time previously received a demand from his ex-mother-in-law for the usual installment of alimony which he had allowed her. He naturally demurred, contending that as he was rid of his wife the law would surely not continue to saddle his mother-in-law upon him. But the Paris court, where the mother-in-law carried the case, told the young man that the code was unmistakable, and he would have to continue to support his ex-wife's mother. He appealed to another court, which last week reversed the judgment of the lower court.

THE Northwestern Electric Motor company, recently organized with a capital of $1,000,000, will erect a plant at Hammond for the manufacture of street car motors and storage batteries under the patents held by Theodore M. Foote, the inventor of the American rapid telegraph system and stock ticker. Ten acres of ground will be used for the plant. The stock is held by Chicago and New York capitalists. The plant is located on land recently purchased at Hammond by the Stony City Land Syndicate, of Iowa, and a cotton mill costing $200,000 will also be established there.

NINE land owners near Greentown refuse to sell right-of-way to the Indiana Natural Gas and Oil company, better known as the Chicago pipe line, and they have retained counsel, headed by Add. C. Harris, of Indianapolis, with a view of contesting every inch of ground. Yesterday exceptions against the appraisement were filed with the clerk of Howard county, covering every possible detail, including the legislative acts in prohibition, and the matter will go to the supreme court. The Chicago company so far has not laid a mile of pipe west of Winnamac, and an agent reports that no further steps will be taken until disputed points have been passed upon in the court.

WHILE laborers were employed on a street sewer at Evansville, Patrick Kennedy unearthed a collection of old silver and copper coins, some of them well preserved while others had lost their identity through the corrosive effects of Mother Earth. German, English, Canadian and Brazilian pieces were identified, the dates ranging from 1816 to 1869, and four American cent pieces were uncovered bearing date 1833, 1848, 1851 and 1854, respectively. A George III shilling of 1816 was also found, together with a coin bearing the inscription, "Ein Verein, XXX," with "Ein Pfund Fein, 1867," on the reverse side. Mr. Kennedy refused several tempting offers for his collection.

MAY TELEPHONE TO EUROPE.

Superintendent Wilson, of the Chicago Telephone company, does not regard telephoning to Europe as impossible, but, on the contrary, expects to see it done in the future. He, however, says there are at present great obstacles in the way which cannot be removed by discoveries thus far made in the electrical world. Speaking of the scheme for Atlantic "halloing" said to have been invented by Gorham Gray, Mr. Wilson said to a Chicago Post reporter: "I do not know Mr. Gray—never heard of him or his invention, but that does not disprove anything. However, in the light of recent discoveries in electricity I regard it as very improbable that he has solved the problem of long distance telephoning. Experiments in talking from Chicago to New York have shown that a wire will carry a voice 1,000 miles, and arrangements are being made for the construction of a line between the two cities. This is over the land. The difficulties under water are great, and the current obtained in the telegraphic cables now in operation are very weak. While I say it looks impossible at present, there is nothing impossible if electric currents were fully understood. The best electricians in the land are now grappling with the problem of long-distance telephoning and their efforts are bound to be rewarded with success in time."

HUNDRED MILLIONS OF MONEY.

That's What the Attorney General Sees in the Bank Case.

(Indianapolis News.)

The bank case, growing out of the action of the state board of tax commissioners in arresting bankers for refusing to furnish their list of depositors to the board, will be argued in the superior court the 29th of this month. Attorney General Smith is preparing his argument. The more he looks into the question the more he becomes convinced that the stand the state board took, upon his recommendation, is one that can be supported. "This is the biggest case in which the state of Indiana has ever been involved," said Mr. Smith to a News reporter today, "and it is natural that I should want to win it. If I win it means that $100,000,000 of taxables will be added to our duplicate. That is certainly a sum that is worth fighting for. Victory not only means $100,000,000 more of taxables for this year, but for each year for many years to come. The importance of the case can hardly be estimated." A. C. Harris will be the leading counsel for the bankers.

Coal Miners, In Convention, Decide to Make a Demand.

PITTSBURG, Pa., Sept. 24.—The coal miners of the Pittsburg railroad district, involving 9,000 men, will demand an advance in wages at a convention in this city next Tuesday. This step was resolved upon at a mass meeting of the miners held at Mansfield, Pa., yesterday, and at which President J. B. Rea, of the United Mine Workers, and President John Costello, of District, No. 5, were present.

HOOSIER HASH.

An Interesting Budget of News Gathered From Different Parts of the State.

While laborers were ditching on the Maish farm, near Warsaw, part of the remains of a mastodon were uncovered.

It is claimed that the driven well recently put down in the court house yard at Lebanon is giving forth waters possessed of many curative powers.

The daughter of John Richardson, of Lebanon, one week old, weighs but one and three quarter pounds dressed. The little midget is healthy and bright.

Martin Hall, of Lagrange, charged with administering a poisonous dose to Sheridan E. Hughes, which resulted in death, has been arrested for murder.

Rev. Francis Siepen, of Evansville, sailed for Europe on a health trip, and a cablegram announces that he is lying in a hospital at Trever, Germany, hopelessly ill.

It is said that John Scott, of Columbus, swallowed his false teeth, and he afterward regained them while driving for a physician, in a headlong fall from his buggy.

Larkin Grayson, of Parke county, who recently was awarded a pension and was paid $130, is mysteriously missing, and his friends believe he has met with foul play.

Richard Wyland, residing near Etna, has been arrested for alleged burglary in Whitley county, on evidence of his companions in crime, William Smalley and young Bowlsby.

John Hall, of Tangier, one of five young men accused of criminally assaulting Mrs. Taylor Davis, has been fined $25, the punishment also calling for six months in jail.

William O. Adams, a farmer near Elizabethtown, warned his wife that if she attended the Barnum's circus at Columbus she would find him a corpse upon her return. Mrs. Adams went to the circus and her husband committed suicide.

William, alias "Wing" Stewart, charged with the murder of Orril Selig during a dance at Madison some months ago, has been captured at Frankfort. The Patter brothers, accused of participating in the same murder, have been acquitted.

It is charged that the Tipton county commissioners, in order to meet the increased state tax levy, reduced the county and township tax $12,735 95, and inquiry is made if this last named amount was sufficient for Tipton county purposes, why a greater amount was collected in years past.

William Zellars, a street car conductor at Terre Haute, was fined for whipping his wife. Mrs. Zellars then revenged herself by lodging information with the railway company, in effect that Zellars had invented a system by which he could beat the car register, and that in one day he knocked down $7.

Noah Evans, of Rochdale, who killed a man named Adams, alleging that Adams insulted his wife while she was under treatment for the morphine habit, has been indicted for murder. His attorney moved for a change of venue, but Evans vetoed it, saying that he wanted to be tried by his neighbors. Public sympathy is on his side.

John Hively, son of a well known family in Washington township, Whitley county, forged notes by which he realized $250, spent the money in dissipation, and fled to Ohio. He was captured, and on a plea of guilty was sentenced to eight years' imprisonment. He confessed that he did not need the money, and that he committed the forgeries simply to have a "good time."

William Smith and his presumed wife settled in Yorktown seven years ago, where they remained until the present week. One child resulted from the union, a girl now aged five years. Early this week a stranger appeared upon the scene, and it led to developments showing that Mrs. Smith was the fugitive wife of a wealthy Minnesota farmer, for whom he had been searching ever since her flight, while Smith's real name was William Britton. Both had abandoned families previous to settling in Yorktown, and it was the yearning desire of Mrs. Smith to see her children which led to discovery of her hiding place. Yesterday the Smith family was broken up, the mother leaving for Minnesota.

While colored people of Evansville were picnicking in Barnett's grove, in celebration of the Emancipation proclamation, a burly young negro, knife in hand, ran amuck through the crowd, striking right and left, but doing no damage beyond cutting the clothing of people until he reached the side of Mrs. Kitty Dyer. The knife missed Mrs. Dyer but buried itself in the head of her six year-old daughter, making a ghastly and dangerous cut. The crowd fled in wild dismay, and the ruffian escaped arrest.

SIX KILLED.

A Passenger Train Runs Into a Work Train at McKims.

PITTSBURG, Sept. 21.—By a rear end collision near McKims station, on the Pittsburg and Western railway, at 6 o'clock this morning five men were killed outright and seriously injured, one of whom died en route to the hospital in Allegheny City. About 6 o'clock the work train running as first section No. 36, started from North Sewickley, forty-three miles west of Pittsburg, to go to McKims to do grading. About twenty-five laborers, Fins and Italians, were on board. An unusually dense fog obscured all view of the tracks. Regular No. 36, Engineer Fillars, following the work train as second section of No. 36, overtook and ran into the rear of the work train with terrible force. The work train was swept from the track and the laborers and brakemen were crushed in the wreck. John Houghton, engineer of the work train, is among the dead. The laborers killed were known only by numbers. Of the injured who were brought to Allegheny hospital, John Mackey, Wm. Mackey, John Youpenny and Mike Younterst were able to give their names. The others are unconscious and in a critical condition.

1:10 P. M.—Wire communications with McKim's station has been restored and definite information received that eight persons were killed and fifteen injured by the collision near McKim's station.

This remedy relieved me at once, and cured me entirely in a short time. I got several bottles and gave it around among my acquaintances who were afflicted in the same way." For sale by druggists.

AMONG BUSYBODIES

A "Sentinel" News-Gatherer Wended His Way and Herewith Presents His Collection.

Thomas O'Connell, a machinist, has taken a position in the Pittsburg shops.

The Lake Erie and Western has begun to receive its new cars from Michigan City.

John Slater, an enthusiastic McKinley man, went to Van Wert to hear the high tariff orator today.

M. E. Tuttle, of the Pittsburg dispatcher's office, spent a few days this week with Chicago friends.

George Burgh, of the Kerr Murray works, is at Massillion, Ohio, attending the bedside of his sick father.

Including the 500 box cars recently built by the Wabash road the company now has in service 15,000 cars.

Lloyd Tower, machinist in the Pittsburg shops, leaves tomorrow for the west, to be gone about two months.

A. H. Polhamus, Dr. J. M. Kells, J. W. Clark and Enoch Cox, all of the Pittsburg, went to Van Wert today.

John Rufing, of Rhinesmith & Simonson's, is building an addition and otherwise improving his property on High street.

No. 8, on the Pittsburg, ran into and completely demolished one of the baggage trucks at the south depot last evening.

William Dunlap, for several days on the sick list, resumed work this morning at the factory of Rhinesmith & Simonson.

The Indiana Machine works were closed for repairs yesterday and the men took advantage of the "shut down" to attend the races.

All the departments in the Pittsburg shops, except a portion of the car shops, were closed yesterday afternoon and the men attended the races.

Dr. J. M. Dinnen, general surgeon of the New York, Chicago and St. Louis railroad, has appointed Dr. W. W. Barnett, an assistant surgeon.

J. Bern, commercial agent of the Wabash at St. Louis, has resigned and is succeeded by H. Coyle, a well known traveling agent of the Wabash.

Supt. J. B. Barnes, of the Wabash, took in the races yesterday. Last evening Superintendent and Mrs. Barnes left for their home in Springfield, Ill.

Manuel Dill, who is breaking on the Fort Wayne, Cincinnati and Louisville local freight, is off duty because of a badly sprained ankle. He lives in Muncie.

The regular meeting of the Trades and Labor council takes place this evening at Trades and Labor hall, corner Wayne and Calhoun streets. Every delegate is requested to attend.

Dr. H. W. Morehouse, chief surgeon of the Wabash, was the guest of Drs. O. B. Stamen and M. F. Porter, yesterday. He resides at Springfield, Ill., and returned home last evening.

This has been an unfortunate month on the Cincinnati, Wabash and Michigan road. Through collisions and derailments thirteen engines, it is stated, have been so disabled as to be fit subjects for the shops.

The repair shops of the Cincinnati, Wabash and Michigan, at Wabash, of which Charlie Doebler and William Wolford, late of this city, are at the head, now employes 235 men and more are being hired daily.

Ernest Miller has returned from Indianapolis to take a course of studies in shorthand and typewriting. He will probably resume his old position in the Lake Erie and Western offices in Indianapolis, after his school term.

Dr. J. M. Kells, medical examiner for the Pennsylvania Voluntary Relief association, has found his long missing pony. The animal had strayed away and was taken up by a farmer nine miles south of the city, on the Bluffton road.

George W. Howard, formerly master of transportation of the Monon, and who for three years past has been filling the office of grand chief of the Order of Railway Conductors, was re-elected to that position at the convention just held at Louisville.

E. A. Wales will probably soon be a resident of this city again. He went with the Lake Erie people when they moved their ticket headquarters from this city to Indianapolis, but resigned his position with the company and will come back here.

Engineer M. Horning, who was on the Pittsburg sick list, has reported for duty.

F. A. Tagtmeyer, of the Pittsburg, has reported for duty after a week's absence on account of sickness.

J. Stewart, passenger fireman on the Pittsburg, is off on a vacation. His place is being filled by W. Concannon.

C. Durnell and A. J. Ford, Pittsburg engineers, reported for duty this morning after a day off on account of the races.

W. H. Bryant is a Benedict now. He was married last evening to Miss A. Mergett. Mr. Bryant is a caller in the Pittsburg round house.

The local baggagemen have their hands full this week, all on account of the races. The arrival of a big emigrant party this morning also added much to the work at the south depot.

The Pittsburg train this morning unloaded a large party of emigrants, who separated here, some taking the Wabash for the southwest and some going north via the Grand Rapids. They were typical Hollanders, wooden shoes and all.

Conductor Sylvester McMahon, of the Pittsburg, was to leave this week for the east, on a month's vacation, but several of the conductors having taken sick, he was compelled to postpone his vacation. He will be accompanied on his eastern trip by his two daughters.

Contractor William Moellering, of this city, who owns the old H. C. Paul stone quarries west of Wabash has extended the Wabash railroad switch to the quarries and obviated the transfer of stone by train cars. Much stone is being shipped out this season by Mr. Moellering.

The Grand Rapids road is now making special rates to hunting parties to the Michigan hunting grounds. The new game law allows deer shooting in the Upper Peninsula between September 25 and October 25, and the hunting rates went into effect September 20, to allow sportsmen to get on the ground and get their camps located.

Robert F. Douglas will go to Peru next Wednesday morning to assume charge of the Wabash ticket office, relieving O. A. Pollock, who goes to Decatur, Ill. Mr. Douglas will also have charge of the ticket office of the Lake Erie and Western at Peru. His many friends in Fort Wayne will miss his genial presence, but all rejoice in his exceeding good fortune in securing the position.

A canal boat was named after President Garfield, a fighting dog in honor of General Grant and babies galore will carry the name of Grover Cleveland to posterity. On the Lake Erie and Western main line, not far from Lima, Ohio, is a side track large enough to accommodate seventy-five freight cars. The track is down on the train-sheets as "Brice," having been named for Senator Brice, who is also president of the road.—St. Louis Globe Democrat.

At Akron, Ohio, Wednesday night, railroad trackmen found a tie across the Erie track and two near the southern corporation line, on the Cleveland, Akron and Columbus track. When they went to remove the ties, three men threw stones at them. Officers hunted them for two hours, but could not capture them. Express trains passed through on the Erie and C. A. and C. shortly afterwards, and torpedoes were put on the tracks to warn the latter trains to go slow. A tie was found by Sheriff Bunn, the night before, on the C. A. and C. track about a mile further south.

Captain R. H. Harrison, the foreman in the Pittsburg car shops, who is in the west on his wedding tour, writes an interesting personal letter to THE SENTINEL reporter from Goodland, Kan., from which the following is taken: "Myself and wife are spending a few weeks with her brother, Frank, at Goodland, Kansas, 1,350 miles from good old Fort Wayne. This is a wonderful country, crude as coal oil, and nothing to see but the vast plains—not a single tree. The grass is parched and looks burned, yet people call it ripe and good for fattening cattle. Give me good old Allen county yet, where all vegetation looks natural and ever green. Saturday night we start for the springs and Pikes Peak. I can buy a farm of 160 acres, one mile from this town, for $350 to $400, with good houses and barns, but God help the poor man that has to endure this life. We attended a concert, given by church people, and had a very nice time. The people are very kind to strangers and call to see you and look you all over."

To the Cambridge City Races.

September 22 to 26 one fare for the round trip. Horses such as Nelson, Nancy, Hanks, Monbors, Hal Painter, etc., are booked. See Fort Wayne, Cincinnati and Louisville ticket agent for further particulars. 14-11t

A Woman Best Understands a Woman's Ills.

The experiments of Lydia E. Pinkham that years ago gave to the world that blessing, the Vegetable Compound, were made through a feeling of sympathy for the afflicted of her sex. She discovered that nearly all the diseases of woman have *a common origin*, and their cure may have *a common cure*. As a result, thousands of women in all parts of the civilized world do risk grateful remembrance of Lydia E. Pinkham's Vegetable Compound, and ever bless its discoverer.

"My Work Shall Be Perpetuated."

The perpetuation of Mrs. Pinkham's work was guarded by her foresight from the start. Every suffering woman applying to her received personal attention, and the details of every case *were recorded*. These records are to-day the *largest in the world*, contain facts not to be found elsewhere, and are now available to the Women of the World.

A Savior of Her Sex.

When pain becomes a constant companion; when there is no repose for the sufferer by day or night; when life itself seems to be a calamity; and when all this is *perverted by a woman*, whose only ambition is to do good to others, has she not won the above title? Suffering women who seek Mrs. Pinkham find both a helper and friend.

A Record of a Life's Work.

The entire facts connected with every case ever treated by Lydia E. Pinkham are on record. With the assistance of lady clerks, writing at her dictation, over one hundred letters per day have been dispensed of, the answers going to ladies in all parts of the world, and the facts compiled in a *library of reference* for the benefit of suffering women. Here is a life's practice of *a woman among women*, and it presents the *largest* collection of *facts* the world has ever known.

LYDIA E. PINKHAM'S Vegetable Compound

A LUCKY PROSPECTOR.

A Gold Vein Which Yields $110,000 to the Ton.

CHEYENNE, Wyoming, Sept. 24.—Word comes to Lander that Emile Cranmer, manager of the French Hydraulic company, has made a wonderfully rich strike on some quartz ground that he has been prospecting for some time. The find is near Lewiston, eleven miles below Atlantic. The lead uncovered is thought to be an extension from the Burd mine a lode long conceded to carry the richest ore in the state. Assays from twenty-two inches of the discovery returns $110,000 to the ton. In spots the gold is so thick that there is not enough rock to hold it together. Mr. Granger has shipped a ton of the quartz to Denver for testing.

Men's Fall Suits

--AND--

Autumn Top Coats!

THERE is a vast difference between vanity and proper pride in ones personal appearance. The former leads man—woman, too, into extravagances, while the latter is not only permissible, but admirable.

SO LONG, however, as people neither think nor look alike, so long will it be our business to have a stock so large, varied, honestly, good and fashionable that all tastes can be suited.

THERE isn't a particle of reason why you shouldn't wear what becomes you, just what pleases your fancy; and you'll find it exceedingly difficult to discover anything as good for the money as the Fall Overcoats we are selling at

$6, 8, 10, 12, 15 and 18,

As well as the Suits for $10, 12, 15 18, 20 and 22.

Childrens' Clothing!

Our salesmen say we never gave them such a stock of Boys' Clothes to reveal in before, and they are ready with tender smiles for the annual September swoop of the boys. It is gratifying to record the fact here, that mothers have come to rely upon our judgement and taste to such an extent, that it is common to see the little shavers come into our stores for clothes, accompanied only by their fathers and, in some cases without even them. The mothers confidence in us could go no further.

LOOK UPON THIS PICTURE

If you are looking for respectable clothing made upon honor and sold upon honor by responsible dealers in merchandise, not rubbish, clothing made by honest labor, and outside of sweat shops and outside of prison walls; sweat shops that wear out the souls of men, women and even children, and which paralize their bodies long before their time.

If you are not looking for such goods,

Come to Us.

If you are looking for clothing made in scab shops, gathered together from prisons and from such places that are open enemies to honest labor. Clothing that is put together for purposes of decption and fraud, shoddy and tainted, the refuse of other respectable dealers and scarcely worth the paper it is wrapped in when sold to a poor deluded victim. If this is what you want,

Don't Come to Us.

THEN LOOK UPON THIS

We agree to refund the money to any purchaser if he does not find our clothing as low, if not lower in price than the so called "Misfit," "Bankrupt," "Fire," or any other questionable, or otherwise tainted name applied by dealers advertising to do things which are flagrant LIES and INTOLLERANT, FALSE MISREPRESENTATIONS and which would not be tolerated were it not for tricks that are resorted to by these "fly by night" shops to evade the law.

We feel that this WARNING will have no effect on the Smart Alecs, who are always on the lookout to get "something" for "nothing," nor for those who rarely read the news papers and therefore do not know the trick resorted to by unprincipled and irresponsible dealers who are here today and gone tomorrow, but always throwing out their bait to catch suckers.

It is unfortunate that the output of the Sweating Shops, the degrader of honest industry and rubbish gathered from districts reeking in filth and disease is permitted to be foisted upon any cummunity under the garb of merchandize, but it is still a greater pity that it is usually the wife, children or dependants of some poor fleeced victim of these bunko shops who have to suffer his ignorance. With this in view and knowing we have a moral support of every respectable citizen, is why we cause these solemn facts to be published.

Respectfully, THE C.O.D. 73 to 77 Calhoun St.
